# **MPX** SERIES CONNECTORS

MPX Series Connectors add ease of use and security to your media transfer applications. Choose from a full line of connectors and configurations, including pressure sealing caps and plugs in sizes to fit 3/8" and 1/2" tubing. MPX couplings offer optional locking sleeves to further guard against accidental disconnects. In addition, coupling halves can be rotated when connected reducing tube kinks.

# SPECIFICATIONS

**OPERATING PRESSURE** 

Vacuum to 60 psi, 4.1 bar

#### **OPERATING TEMPERATURE**

**Polycarbonate:** -40°F to 250°F (-40°C to 121°C) **Polysulfone:** -40°F to 300°F (-40°C to 149°C)

#### **STERILIZATION**

Gamma: Up to 50 kGy irradiation Autoclave: Polycarbonate: Up to 250°F (121°C),

30 minutes, up to 10 repetitions Sterilize uncoupled only Polysulfone: Up to 270°F (132°C), 60 minutes, up to 25 repetitions Sterilize uncoupled only

**TERMINATIONS** 3/8" to 1/2" ID (9.5mm to 12.7mm)

#### **MATERIALS**

Main components: Polycarbonate (purple tint) Polysulfone (amber tint) Locking sleeves: PVDF (white) **Thumb Latches:** Polycarbonate (white) PVDF (white) **O-rings:** Silicone (clear), platinum-cured

WARNING: Pressure, temperature, chemicals, and operating environment can affect the performance of couplings. It is the customer's responsibility to test the suitability of CPC's products in their own application conditions.

### **BENEFITS**

Ergonomic thumb latch $\longrightarrow$	Easy to operate – even with gloved hands
Parting line-free hose barb $\longrightarrow$	Prevents potential leak path
Optional locking sleeve $\longrightarrow$	Prevents accidental disconnection
Mix and match termination sizes $\longrightarrow$	Enables flexiblity in your system and/or application

# **TYPICAL FLOW RATE:**

**FEATURES** 

Cv Value Range: 4 - 17 for MPX

Cv values represent the approximate expected flow rate in gallons per minute of water at room temperature for a 1 PSI pressure drop. The flow is generally constrained by the smallest diameter, which in some cases will be the termination diameter and not the Nominal Flow Path

# NOTE

Validation and Extractables data can be requested at cpcworldwide.com/MPX

# DID YOU KNOW

The MPC and MPX connectors are perfect for smaller bag systems for aliquoted media or other product stored in bags.
