Material Compliance

The materials of construction of the range of Fittings delivered by Romynox are compliant to FDA CFR 21 and are GRAS (Generally recognized as safe).

In addition to the above, the following standards governing the supply of fittings of Romynox:

- U.S. Food and Drug Administration (FDA)
 - The materials of construction of the range of clamps delivered by Romynox are compliant to FDA CFR 21 and are GRAS (Generally recognized as safe).
- USP Class VI
 - No USP Class VI certificate is needed, for the material is Stainless Steel, not plastic
- ISO 10993 Regulation (EC) No 1935/2004 of the European Parliament and of the Council
“The principle underlying this Regulation is that any material or article intended to come into contact, directly or indirectly, with food must be sufficiently inert to preclude substances from being transferred to food in quantities large enough to endanger human health or to bring about an unacceptable change in the composition of the food or a deterioration in its organoleptic properties”
- Commission Regulation (EC) No 2023/2006
In relation to this Regulation, which includes “Good manufacturing practice for materials and articles intended to come into contact with food”, Romynox are committed to ensuring that our customers are provided with full traceability via batch and certificate management.
- RoHS
The products are compliant with RoHS Regulation 2015/95/EG
- REACH
Stainless steel tubes and fittings meet the requirements of the REACH Regulation

- TSE/ BSE (ADCF)
 - raw materials are not manufactured from animal or human origin.

The products are made of:
Stainless Steel
