

# MUSHROOM VENTS

## Mushroom Vents with Tri-Clamp connection

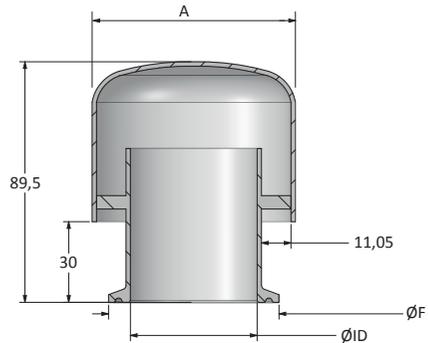

These vents are constructed of 316L stainless steel with a solid radiused and panned top. The vents may be installed on CIP tanks to prevent foreign materials from entering the tank. Mushroom vents prevent any pressure build from occurring in non-pressure tanks such as water storage.

## Technical information

Sizes	½" to 2"
Connections	Tri-Clamp
Material	316L
Finishes	Interior surfaces SF1
Certificates (standard)	3.1 material
